

CT Angiography Post Procedure Discharge Instructions

1. It is recommended that you have a driver to take you home after your procedure.
2. Drink plenty of fluids (6-8) glasses today to prevent dehydration and to aid in the clearing of dye used during the procedure. Resume your regular diet.
3. You need to rest for 2 hours after your procedure then you may resume your normal activities.
4. If you have any questions or problems, please call 330-376-0500
5. Notify your physician immediately if you experience any chest pain, faint, weakness, rash or itching.
6. Do not hesitate to call 911 or your local emergency number if you believe that your problem is serious or life threatening.
7. If you have been instructed to obtain lab work 48 hours after your scan, our office will notify you of the results
8. You may resume your glucophage, glucovance, metformin, avandamet or metaglip in 48 hours.
